April 14, 2010

Vicki,

On behalf of New York Road Runners Youth and Community Services Division, thank you for producing the Fifth Annual Eve Fenton Love-All Foundation Track meet in Jefferson Park on April 7. As in past years, the event is both great fun for the 100+ children who participate and a vital life lesson that promotes physical fitness, sportsmanship and teamwork.

Your personal commitment to the well-being of children, as exemplified by your diligence in organizing this event, is profound and inspiring. Your dedication, humanity and love insure the children have a great time and that there are always unique events within the event -- like the presentation by the fire department -- which make the occasion all the more special and meaningful. By overcoming challenges to create the event you become a model, not only for the children, but for other service providers. We all take heart from your giant heart, so well represented by your organization's name.

As always, the very best of good fortune continuing your work on behalf of all children in need of hope and health. We look forward to collaborating with you on another great event next year.

Cheers,

A handwritten signature in black ink, appearing to read "Cliff Sperber", with a long horizontal flourish extending to the right.

Cliff Sperber
