

February 2013

Eve Fenton Love-All Foundation,

In February of 2013 the Eve Fenton Love-All Foundation, created an environment of celebration and joy for the patients of the Pediatric Intensive Care Unit, the Developmental Delay Clinics and the Emergency Room at St. Luke's Roosevelt hospital. Patients and families both inpatient and outpatient were treated to entertainment, delicious eatery delights from local business and gifts during their visit.

Entertainment was provided by comedian Bob Greenburg and food was donated by local eateries such as Carmine's, there was also a visit from Hot Dog the Fire Dog from NYFD. The team of entertainers visited bedside and hosted photo sessions with patients to capture their visits.

Families and patients were transported to a world of laughter and fine cuisine all while still receiving treatments, making follow up clinic appointments and receiving care in the emergency room. We thank the Eve Fenton Foundation for their generous and continuous support.

Sincerely,

  
Ingrid Ordóñez-Street
