

July 2013

The Eve Fenton Love-All Foundation,

On behalf of the Pediatric and Pediatric Intensive Care Unit and the Developmental Delay Clinic at St. Luke's Roosevelt Hospital we would like to thank for hosting for us a post Fourth of July celebration on 7/11/13. Your foundation shared with us Fireman from FDNY and their mascot Hot Dog the Fire Safety Dog, comedian Bob Greenberg and Adam Auslander the clown along with great food and gifts from your supporters.

The patients and their families were thrilled by the excellent tasting food and its presentation. It was a good change of pace many of the patients and families. They were able to join in the adventure of entertainment and eats New York style as many patients where from out of town on this day.

It is always a pleasure to work with your foundation on helping us providing entertainment and diversion from the everyday hospital routine for our new and returning patients. We look forward to your next event and continued generosity to our pediatric patients and their families of the Pediatric and Pediatric Intensive Care Unit at St. Luke's Roosevelt Hospital.

Sincerely,

Ingrid Ordóñez-Street,
Child Life Coordinator
