February 2014

Dear Vicky,

The Valentine's Day party was another successful event. The children, families and staff always enjoy the delicious food and camaraderie. It is important for families to have the opportunity to step away from the often serious reasons for why they are admitted the PICU and share a meal, offering families a chance to feel "normal" in an environment that is hardly that. It is due to efforts like yours and the Eve Fenton Love All Foundation that provide moments like these to reflect and remember why we do the work we do. Thank you again for the food and gifts.

Once again on behalf of the staff, children, families, of the pediatric intensive care unit and The Institute of Neurology and Neurosurgery we appreciate your generosity at this event and throughout the years.

Sincerely,

*Genevieve Lowry*
