Dear Vicky,

Thank you once again for providing food and fun for the children, families, and staff in the Pediatric Intensive Care Unit as the Roosevelt Hospital Food bring us together and offers opportunities to share our stories with one another . Often times we forget how difficult it is to provide something as simple as a nourishing meal. Many of the families are so grateful to have a meal both they and their child will enjoy one where they don't have to go out to get leaving their child alone in the hospital.

Once again on behalf of the staff, children, families, of the pediatric intensive care unit and The Institute of Neurology and Neurosurgery we appreciate your generosity at this event and throughout the years.

Sincerely,

*Genevieve Lowry*
